

Cherry Picker

Course Background:

This course is designed to give the best possible training to personnel who work at heights or use a MEWP (Mobile Elevated Work Platform) in their workplace. It teaches the basic skills needed to operate these machines safely allowing for minimum mistakes and provides techniques that help in avoiding potential hazards.

Course Content:

- Legislation and the use of MEWP
- Basic types and specification of MEWP
- Hazards associated with using MEWP
- Accident analysis
- Daily pre-use checks and maintenance requirements
- Safety precautions while using MEWP
- Positioning of the MEWP
- Re - fuelling and battery charging procedures
- Raising and lowering the MEWP safely and correctly
- Emergency procedures
- Evaluating ground conditions

Learning Outcomes:

Upon successful completion of this course participants will gain the skills and knowledge necessary to:

- Operate an MEWP safely
- Correct use of a MEWP in accordance with the manufacturers handbook
- Clearly understand the causes of instability while operating an MEWP
- Easily carry out correctly, a pre-use inspection of the MEWP
- Work safely at height
- Understand fully the procedures for an emergency

Unit 630G, Northern Extension, IDA Industrial Park, Waterford, Ireland.
